DX (Evaporator) Coil Worksheet

Customer: _____

Contact: _____

Job Information: _____

Coil Performance (if known)

Air Flow (cfm): _____ Total Capacity (BTUH or tons): * _____

Entering Air Temp. (°F): _____ db _____ wb Refrigerant: * _____

Leaving Air Temp. (°F): _____ db _____ wb Saturated Evaporating Temp. (°F): * _____

Coil Configuration

Number of Rows Deep: _____ Coil Tube Diameter: _____

Number of Tubes in Coil Face: _____ Coil Tube Wall Thickness (if known): _____

Fins per Inch: _____ Number of Circuits: _____

Air Flow: _____ Horizontal _____ Vertical
(check one)

Coil Handing: _____ Right _____ Left
(check one, referring to sketch below)

Distributor Model No: * _____

& Nozzle Size: * _____

& Number / Diameter of Feeds: * _____ / _____

Suction Header Diameter: * _____

* For multi-circuit evaporators, this information is required for each circuit (use additional pages if necessary).
